Brought to you by

Henry Ford Alumni Association

The Henry Ford Alumni Association was established in 1950 as an alumni organization to foster professional and social relationships for current and former medical and research staff who trained or worked at Henry Ford Hospital. It has grown to include more than 7,000 active members, forming a vast network of colleagues who not only exchange medical and scientific news and information, but maintain lasting friendships that often span both decades and great distances.

Henry Ford Medical Group

The Henry Ford Medical Group is one of the nation's largest and most experienced group practices, with more than 1,100 physicians and researchers in more than 40 specialties. The Henry Ford Medical Group has established itself as one of the premier group practices in the nation; critical care, education and research are the cornerstones of its practice and its large academic enterprise.
